### DETAILED ACTION

1. Receipt is acknowledged of the amendment filed on November 1, 2004, which has been fully considered in this action.

#### *Claim Objections*

2. Claim 6 is objected to because of the following informalities: In line 1, numeral "5" should be changed to numeral --1-- to provide proper claim dependency, since claim 5 has been canceled. Appropriate correction is required.

#### *Claim Rejections - 35 USC § 112*

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1-4, 6 and 8-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, line 12, the recitation of "engages the valve stem such that fluid may fluid" is indefinite and since it is not clear how the seal "engages the valve stem such that fluid flow out of the container assembly is substantially prevented" and also "engages the valve stem such that fluid may flow through the stem passageway". It appears that this should be recited as where the seal .....-- disengages from the valve stem such that fluid may flow through the stem passageway--.

### ***Double Patenting***

5. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

6. Claims 1-4, 6 and 8-18 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-18 of U.S. Patent No. 6,641,005 in view of U.S. Patent No. 5,450,983.

U.S. Patent No. 6,641,005 claims a system for texturing an interior surface comprising all the featured elements of the claimed invention except for the valve seal with its relation to the valve stem. U.S. Patent No. 5,450,983 discloses and claims a system for texturing an interior surface comprising all the featured elements of the instant invention, note specifically valve stem 56 and valve seal 54. It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide a valve seal in the claimed invention of U.S. Patent No. 6,641,005 since with such a modification the valve seal would support the valve stem such that the valve stem moves between open and closed positions and would engage the valve stem to prevent flow out of the container and would disengage from the valve stem to allow flow through the valve stem.

***Response to Arguments***

7. Applicant's arguments with respect to claims 1-4, 6 and 8-18 have been considered but are moot in view of the new grounds of rejection.

***Conclusion***

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
